FOR IMMEDIATE RELEASE

Pavement Project in Ventura County Will Close Some Lanes on State Route 34 (Lewis Road-Somis Road) in and near Camarillo

Daytime Closures Scheduled Monday Through Saturday, Sept. 17-22

CAMARILLO — The California Department of Transportation (Caltrans) today announced the scheduled closure of some lanes on State Route 34 (Lewis Road/Somis Road) for pavement work in and near the city of Camarillo on Monday through Saturday, Sept. 17-22.

Crews will close some lanes between 9 a.m. and 3 p.m. on Monday through Friday, and between 7 a.m. and 5 p.m. on Saturday, Sept. 22, to work at various locations on Route 34 between Daily Drive (just north of the Ventura Freeway/U.S. Highway 101) and State Route 118 in the community of Somis.

Traffic heading in both directions will be allowed to travel through the work zone. A flagging crew will direct motorists. Drivers should expect brief delays and allow extra travel time.

The schedule is subject to change due to weather, operational issues or other reasons.

The work is part of a \$2 million project to repair asphalt and apply slurry seal to the roadway to protect the pavement and extend its life. The contractor is C.A. Rasmussen Inc. of Valencia.

The work is scheduled to continue during the following week and subsequent weeks. The estimated completion date for construction is mid-November, weather permitting.

Caltrans will provide project updates on Twitter @CaltransDist7.

Caltrans reminds drivers to “Be Work Zone Alert” and “Slow for the Cone Zone.”
